YOUSSEF TOPAJI, Full-Stack Developer

I am an enthusiastic Full-Stack Developer with a background in Business Administration and Humanitarian work experience, a recent graduate from HackYourFuture Denmark with 8 months of experience in web development, and more to count. My passion lies in web application development, and I have effectively managed development projects using Scrum and Agile processes. I am committed to driving innovation and staying up-to-date on industry and technological trends. To answer questions we don't know yet, and to ensure a sustainable future.
