

YOUSSEF TOPAJI

PROFILE

I would define myself as a fresh, happy, sharp, and passionate young man, with huge drive and a positive mind about existence. I am 26 years old and have just finished an amazing yearlong stay at a Danish Folk High School. And now I am a refugee, since September, with a deep desire to start working and contributing to the society.

In my spare time I enjoy diving deep into various creative hobbies, and social events with friends and people I do not know yet.

I also play guitar and oud. And I make electronic music.
